

# Powering Premium Solutions

## Mimosa Mall Project Spotlight

At Kirloskar South Africa, we're proud to be the engine of choice for leading OEMs and solutions providers across Southern Africa. Our recent collaboration with Diesel Electric Services for Mimosa Mall is a prime example of how trusted partnerships drive powerful results.

As a premium power solutions provider, Diesel Electric Services delivers expertly engineered systems tailored to critical infrastructure. For this project, they selected four 1000kVA Prime-rated Kirloskar diesel generators to serve as the core power source for Mimosa Mall, a major retail and lifestyle destination in Bloemfontein.

The decision to use Kirloskar engines was clear:

- Proven reliability in demanding conditions
- Efficient performance under heavy loads
- Unmatched durability backed by local support

OEMs choose Kirloskar because our engines are built to perform - day in, day out. As the prime mover in Diesel Electric Services' solution, our generators provide the trusted standby power needed to keep commercial operations running without interruption.

We commend Diesel Electric Services for their professionalism and technical expertise in delivering seamless power integration. Together, we continue to support the region's growing demand for reliable, high-performance energy solutions.

**Kirloskar South Africa remains committed to powering progress - one trusted solution at a time.**
